PROSE-POETRY. From the German of Friedrich Richter (Jean Paul.) OLD MENT

Beautiful are the long shadows when the evening sum lies cool on the earth, for they all point towards the MORNING.

THE OPEN EYES OF THE DEAD.

Gaze not on me, ye cold, staring, blind eyes! ye are dead, yea DEATH. Oh friends! shut those eyes it is only slumber.

REFLECTION OF VESUVIUSIN THE SEAT "See! under the stern, the light of those red streams, which waltz heavily around the Mount of the Deep and consume its beautiful gardens. Unharmed we glide over the cool flames, and our images laugh out of burning billows! Thus said the sailor rejoicingly, as he looked up to the thundering mountain. But L exclaimed: "Behold! thus the Muse reflects in an everlasting mirror the heavy sorrow of the world, and the unfortunate look in and rejoice in the midst of their pain."

THE SUN-FLOWER AND NIGHT-VIOLET. The full-blown Sun-flower once said: "Apollo shines and I expand; he walks over the world, and I follow after him." In the night the Violet said: "Lowly stand I and hide myself and bloom in the short night; the mild sister of Phebus sinfles on me and I fade away and die

### TYRANNY.

The Tyrant crushes the soul before he injures the body; I mean, he seeks to make his slaves dumb, before he makes them poor, because he knows, that when men have a head, their hands will rule, and thus withstand the Tyrant. The Hangman blindfolds the malefactor before he tortures him.

THE FLOWERS AND THE FOLIAGE.

The flowers hung pale and wasted on the stalk, while yet it was early May, and as they remained feeble and tender, the Leaves said: "These weak and useless things! searcely born, they perish already; while we sustain firm and unharmed the heat of summer, growing broader and brighter until at last, after long months of service, when we have given the earth beautiful fruit we go to rest arrayed in many colored robes, amid the can- little money as possible. The blest recollection Of kindness returned! And Memory keeps Her watch, broken hearted,

When day bath departed, Where all she loved sleeps, Let falsehood assail not, Nor Envy disprove; Let trifles prevail not Against those ye love.

Nor change with to-morrow, Should Portuge take wing, O, be kind to each other! The night's coming on, When friend and when brother Perchance may be gone!

When the gloom is deepest round thee, When the bonds of grief have bound thee; And in loneliness and sorrow, By the prisoned springs of life. Thou sittest, yearning for a morrow That will free thee from all strife;

Look not upwards, for above thee Neither sun nor star is gleaming; Look not round for some to love thee: Put not faith in mortal seeming; Lightly would they hold and leave thee-Man and woman would deceive thee.

But in the depths of thine own soul Descend, and mightier powers unroll-Energies that long have slumbered In its trackless depths unumbered. Speak the word! the power divinest Will wake, if thou inclinest,

Thou art lord in thine own kingdom; Rule thyself-thou rulest all! Smile, when fortune's proud dominion Roughly touched, shall rudely fall, Be true unto thyself, and hear not Evil thoughts, that would enslave thee Gon is in thee! Mortal fear not; Trust in Him, and he will save thee!

### The Begining and End of Mrs. Muggeridge's Wedding Dinner.

Mr. Muggeridge is a poor gardener-or rather a poor man and a good gardener-who has always been poor.-Mrs. Muggeridge has lived in wealthy families as a domestic, and has some very vivid notions of high life in general, and of the comforts of good eating in particular. The anniversary of their wedding day is at hand, and Mrs. Muggeridge is unxious to astonish her husband's palate with something a little nicer than it ever knew before. Mary Howitt tells the story, and who can do it better than she does?

How Muggeridge did enjoy that bit of a neck of pork and apple-sauce last Sanday!' thought Mrs. Maggeridge to herself, as she was pondering during the week on what they should have next Sunday for their weddingday's dinner; 'I never saw him relish anything like that pork; and the pinch of dried sage and the mustard made Freedom and the Sun never go down on earth, but are it as good as goose! I do love to see that man enjoy his not get any little recity at a price lewer than the rich

Mrs. Muggeridge thought of the hare again and again; selves. That was the megistrates' law, she supposed. she thought of the nice middle cut of the back, and the sauce and the current jelly; and she thought if she could only just for once, see that on her husband's plate, she should be perfectly happy. The idea stuck fast in har not tell them; for the very best of reasons, because she brain, she could not got it out again: 'There's plenty of did not know herself. She told them so, and said: winter-savory and lemon-thyme in the garden,' thought farther, that she did not think it was any business of hers aftererwards, and was soon at rest. The night was dark she, 'Muggeridge set that himself when I wanted to to be asking folks' names before she bought anything and still, and every thing seemed hushed. Long after make a stuffing for heart;—and currant jelly, why one from them, or to inquire if they were regularly licensed midnight there began to be strange makes in the house, might get a sixpenny pot of that at the confectioner's and and qualified to sell! No, indeed, that was no business and a crash, more loud then the others, awoke M. what's left will do to give the children after physic, if of hers! All she knew was, that she had honestly they should want any. It will be a dear dinner, bought and paid for the here and if the law made that a certainly got in, and was at work below. Taking his thought she, 'any how; but just for once! At all events crime, why then the laws wanted mending, that was all I can go and ask the price of the hare—there is no harm | she could say! in asking."

The poulterers' and games-shops were full of hares, and pheasants and turkeys-there was evidently no lack ought to be sent to prison; but because s're and her, and held his breath; but, recovering himself, he shouted, of such things. Mrs. Muggeridge wanted a hare for as heard four and sixpence and four shillings asked; she could not afford above two shillings. The people asked her if she supposed they stole their bares to sell them at that price. Mrs. Muggeridge turned round and walked home disconsolutely, that hares were not meant for poor folks' enting. When she reached her own door, she became, for the first time, aware that a big lad in leathern leggins and a smock frock, whom she had noticed near the game-dealer's had followed her home.

'Can I say a word to you, missis?' said he.

She took him in. He inquired if she wanted a hare: he said he had been selling some in the town, and that if she liked he would bring a good one for two shillings, the price he had heard her offer.

Mrs, Muggeridge was delighted—it was the very thing she wanted, and she felt as if she could not be civil not the least-and have always borne a good character! enough to him. The next night after dusk, he brought the hare in a covered basket, and received the stipulated two shillings. Now what a dinner her husband should have on his wedding day! but he should know nothing about it till it was time for him to begin eating. She begged him accordingly, on Sunday morning, to take the children out for a walk, as she meant to cook at home that day, instead of sending to the bake-house: he did so, promising to return punctually at one o'clock.

The hare looked quite grand, twirling by a worsted string behind the little clothes-horse, on which she hing a clean sheet to make a hastener, before the fire; Mrs. Muggeridge was indefatigable in basting it. to have that day! The bare was dope to a tire as the husband and the pride of her eyes was gone. She felt children came in with the foaming tankard of ale which lated kitchen; the pride of her eyes was gone. Maggeridge could hardly believe his senses when be came in, it smelled excellently, and there seemed such plenty of it! He fied on the children's pigafores, and set them on tall chairs, and sharpened a knife for his wife to carve this unexpected delicacy, and seemed quite delighted with the compliment she had paid their

the effect it would produce; 'I'd live on bread and water for a week, to see you relish it properly!

Muggeridge said it was good, very good but he was not quite sure whether the park and apple sauce last week was not as nice. Mrs. Einggeridge was shocked to hear him say so, and to please her he was helped a secand time; the children cat the potatoes and gravy and current jelly, as much as they could get and left the hare but then children are no judges!

Muggeridga went back on Monday morning to hi work; and Mrs. Muggeridge lived contentedly on patatoes and salt in the memory of the sumptuous Sunday's dinner. In the midst of these pleasant reminiscences what was, her surprise and consecrnation to receive a visit from a constable, who presented a warrant issued by the then sitting hisgistrates. She must go along with him and answer for the high crime and misdemeanor of having bought a hare from an unlicensed dealer!

Poor Mrs. Muggeridge! if her own kichen flear had opened and swallowed her up, she could not have looked in greater dismay. Defore the bench of magistrates

How had she become possessed of that hare? From whom had she bought it? Did she not know that she was amendable to the k.w for serving purchased a bare from an unlicensed dealer?

'Oh Lord, no! how could she think she was doing any harm?' asked she.

But what business had a person like her with a hard at all? The poor had nothing to do with game of any

These words put poor Mrs. Maggarilge into a passion and she said she meant no herm by what she had done -not she, indeed! She meant only to give her lineband, who was an honest man, a treat on his weddingday, and that was the reason she had a hare; and a very good reason too! Put, added she, her wrath growing es she spoke, rich ladies who were food of their husbands to whom, however, hardly anything was a rarity, might buy just what they liked; and no harm done; but poor folks, who worked hard for every penny they got, could would give for it, without making criminals of them-

impossible it must be for a poor woman like her to pay the fine; they waited for her answer however.

'I have some good farniture,' at length she said, 'a capital chest of drawers, and a good eight-day clock; Albion. either of them is worth the money, if your worships cannot make it easier for me-for I meant no harm-Cannot your worships make it easier to me?

No! the magistrates said they could do nothing of this kind, and that she must think herself very leniently dealt with as it was.

A warrant was thereore issued to seize furniture to the amount of fine and costs; and she went home balancing in ber mind which she would rather lose, clock or chest of drawers. She decided upon the latter, for said she to herself, John would miss the clock most, and the house would be so lonesome without it. A clock is, as one may say, a sort of live thing that keeps one company.

The men, however, said that the chest of drawers was

'Ay, do, my lass,' said John, taking her hand kindly; do, and we shall, may be, be none the poorer in the end by our losses-and I'll tell you what I will do too-it's what master has wanted me to do a long time-as well as you -I'll grow those flowers for the show; I know I shall succeed if I only begin-for when once I begin in good earnest nobody can beat me.'

Well, now, I am pleased, said poor Mrs. Muggerdge, ready to cry; and I'll tell you what, John, we yout fret ourselves any more about the loss of the money and these things, but we'll set to, and get more; and They did get more, and they turned it to good ac-

### A ROBBER SHOT.

In a quiet village, not far from the great and stirring fown of Liverpool, there is a small druggist's, shop which abuts on the main road; its only occupants were Jr. Mark Melrose and his man Robert. The shop had dash of splender in its appearance, and its interior had been fitted with various enrichments, at considerable expense. Late one night, Mr. Melrose, finding hin self knowing from whom she had bought the lare. Ehe did fatigned, desired his man to shut up the store. The man complied, retired to bed in the attie, and was soon asleep. Mr. Melrose also retired to his chamber shortly Melrose from his sleep. #### From the Northern Tribune. MONEY DIGGING IN DRESDEN.

Every body in these diggins' has heard about the forts that were made 40 years ago, and that have been continued at different periods since, by certain persons to obtain the needful by digging for it in a certain spot in the town of Dresden, pointed out by one of those favored individuals who are gifted with the power of looking through a stone. Passing by the place last Saturday in company with one or two others, we puld a visit to th, spot, and found that furty years had not dissipated the illucion. Four able bodied young men were engaged in prosecuting the search after the hidden treasure to obtain and having nearly worn out, a set of stereotype plates which thousands of dollars have already been expended has recast it in large beautiful type, with elegant engray

Where they were digging was a veip of cable stone which the men supposed had seen placed there by those who buried the money, and every one which they found broken gave new strength to their frith.

One hardly knows whether to laugh at or pity the crelality of those who can believe that men would dig 20 feet deep to bury money and cover it with thousands of tons of stone. We came away decidedly of the opinion that there are some fools in the word yet,

#### GOING TO LAW.

Two Dutchmen, who built and used in common a mall bridge over a little stream which ran through thei farms, had a dispute concerning certain repairs which were required; one of them objected to paying he expense of two or three new planks. ## AN AUCTIONER'S DISMISSION.

The editor of the Cincinnati National gives the following as the manner in which an auctioneer of that city dismissed his customers a few evenings since: 'You can now cut off to your peaceful homes, such of you as have any-those who have not will please return to your respective stalls in the market-house, and there consign yourself to the hug of Mr. Morpheus. Visit no coffeenonses on your way, lest afterwards, unwillingly, you make the reoking gutter your nocturnal couch, and there receive the visit of some magranding swine, the ravenons craving of whose capacions may shall cause blin to insert his unwashed snout into the inner temple of your shirt-bosons! I pray you avoid it. Now get out of this house, every beggir of you or cross dogs and your cont-tails will become intimate acquaintances! Slide!

A FARMER'S BAROMETER. A writer in the Georgia Farmer gives directions for making a cheap harometer, to aid in foretelling the weather. He takes a stick three feet long and attaches to the but-end of it phial, full of air, of course, and corked tight. stick is then suspended in a horizontal posi ion on a pivot where it will turn, say on a thread tied near its centre When the storm is coming on, the air outside is lighter than that in the phial; of course the phial sinks and indicates a change in the atmosphere. Such a barometer may be made in ten minutes, and some of our philosophic f riners will incline to have barometers of their own manufacture.

### PRUNING.

This operation is performed by some in winter, by others in May; while a third class of theorists recommend any time,' as the best. By this, we suppose they inend to be understood as saying, that the orchardist, who happens also to be a farmer, should consult his own convenience rather than the laws of nature, and whenever be can find time. But we should recommend the month of May as the most appropriate season for this operation; and in this we are fully warranted by the results of innumerable experiments, i stituted both by ourself and others .- Maine Cultivator.

DEATH OF CHILDREN. A writer in an English nagazine, speaking of the death of very young children, thus beautifully remarks;

"The sinless soul of the cherub child, that dies on its mother's breast, wings its way to heaven, unconcious of the joys it might share here, as also of the many miseries of which it might be a partuker. This can bardly be called DEATH. It is but the calm, soft ebbing of the gentle tale of life, to flow on no more in the troubled occun of existence; it is but the removal of a fair creature, 'too pure for earthly stay," to make one of that bright band of cherubins which encompasses in glory and in joy the thune of the living God," : 100 :

"But, glorious as may be the change to the little ones. it is hard for the mother to part thus early with her fair-haired innocence-to break off all the delightful ties of parting tenderness that had bound her, even in a few months, to that gentle form forever,"

The American Tract Society has circulated within a low years more than 100,000 copies of Pilgrim's Procress, SATURDAY MORNING. ARRIL 3, 1847. ADJOURNMENT OF TOWN MEETING.

Our readers will bear in mind that the Annual Town Meeting stands adjourned to April 5th,-next Mondayat I o, clock P. M., at Village Hall, in the North Parish. There is a large amount of important business which comes before the Town at this meeting, and it is to be booed that there will be a full attendance. We presume the town will be desirous to continue the policy adopted last year of a rigid economy of expediture totaxes with a view to the rapid extinguishment of the town eration of the Convention.

We have before alluded to great success of the Col-We understand that up to yesterday he had paid in \$19,- en. 905 in cash, and that of his whole list, deducting abate ments, there is only \$184,92 due to the town. This promptness is highly creditable both to the Collector and tax-payers and conducive to the prosperity of the financial concerns of the town.

We copy from the list prepared by our indefatigable Town Clerk, the following subjects, which are to be acted upon:-

To choose all such officers as the law requires to be chosen in the month of March or April annually.

To choose one Selectman and Assessor, in North Par-

To choose one person to serve as Fireward.

To choose a Board of School Committee, and to fill all vacancies there may be at the time of said meeting. To hear the Report of the School Committee.

To hear the Report of the Firewards.

To hear the Report of the Committee of Finance, who had the following subjects committed to them, viz:

To see if the town will raise any money for the nec essary and usual expenses of the town, if so, to deter. mine the sum and when it shall be paid into the treasury

The following vote was passed at the Meeting, March 1st, 1847: Voted, That a COMMITTEE OF FINANCE consisting of seven persons, be chosen to report to the town, at the adjournment of this meeting, the probable amount of money that may be necessary to raise, to defray the expenses of the Town the present year and that it is the wish of the citizens of the Town, in doing this, that the Committee in making their estimate, have in view the retrenchment of the expenses of the Town. ## THE RAIL ROADS.

The action of the Legislative Committees on Railroads seem still to excite much attention, and as two of the Committees have completed their hearing of evidence, public curiosity is increased to know the results to which they have arrived.

With regard to the batch of Railroads which most interest the people of Middlesex and Essex, particularly the inhabitants of Danvers, we are stll in the dark .-The Committee have the whole matter before them and Report may be expected in all next week. It is quite impossible to predict with any certainty the character of mass of testimony laid before the Committee, showing shire. he wants and great business of this town require better Railroad facilities with Boston, that they will see the propriety of recommending to the Legislature the granting of a charter for a Railroad which will afford the accommodations required.

The Maiden Road holds the first place in the wishe of the people here, and for the third time its claims have been urged with great vigor and ability and backed with ample evidence of its feasibility, and an unprecedent brought about by the philanthrophic Miss Dix. number of petitioners. On Monday and Tuesday last, Hon. RUFUS CHOATE advocated its claims before the Committee in an argument, said by those who were so fortunate as to hear it, to be even superior in brilliancy and power to that presented by him the last year. We hope it has had the effect to carry conviction to the minds of the Committee.

On Thursday afternoon, Mr. Hopkinson, of Lowell, made his argument before the same Committee, in favor of the 'Jaques' petition, which is a rival route to Lowell from South Reading, in opposition to that advocated by Mr. Livingston. If the Committee, like its predecessors who have acted on the Malden petitions, should see cause to refuse the application for that route, we have still hope that the claims of Danvers for better Railroad accommodation will not be wholly disregarded.

ABSTRACT OF AGRICULTURAL RETURNS .- We are indebted to to the Secretary of the Commonwealth for a copy of his Abstracts from the Returns of Agricultural Societies in Massachusetts for 1846. The Abstract has been made up on substantially the same principles as that for 1845, omitting the Addresses, and adding the list of Officers. The Secretary acknowledges the valuable aid of Hon. Allen W. Dodge, of Hamilton, in the preparation of this yery useful work.

If they did not, they were too wise to avow it, as such incredulity might have deprived them of a very entertaining pastime. Our traveller was really quite intelligent, and had picked up a great deal of information in his travels .into several parishes, some of which are 2 or 3 miles from bear without flinching any kind of cross questioning and come out with flying colors. Keene, as I said before is a beautiful town, delightfully situated on a plain surrounded by distant hills. It is a low and ill lighted room, and I was pleased to see that a Notice was in the Warrant for a town meeting, to consider the expediency of building a new Town House. Such a structure could be built here at small cost and would add much to the convenience of the inhabitants, as well as be an ornament to the place. Judging from the public spirit of the people here, as manifested in other cases I think that this design will soon be accomplished. There is an incorporated Academy here, which is in a flourishing condition. It is kept in a stately brick building, near the public square. Mr. Editor-I was glad to see the suggestions in your last paper, as to the propriety of apprepriating such a sum for the support of our public school, as will enable us to retain our teachers through the year; and this without the necessity of calling for a contribution from those who are auxious to have good schools. I am not in favor of paying extravagant salaries, but there should be enough appropriated by the town to pay such sum as is proper to be paid. Suppose \$3,50 to be allowed for each scholar-this will give in our District about \$900. Allow the male teacher \$500-one of the females \$200, and the other \$150-and then you will have \$50, for wood and other incidental expenses. How can we get along with a less sum? There are other districts that need this amount quite as much as we do. I hope they ONE IN No. ELEVEN.

FOR THE COURIER.

Mr. Editor-Allow me to congratulate your correspondent (who has volunteered his services in behalf of Mr. Hudson) on the manifest improvement in his style, as evinced by his article in your last paper. He now writes like us common folks, and gives us a plain, straight-forward chain of good, clear sentences. If he continues to improve as much, in all respects, during every fortnight of his life, as he has during the two weeks that have intervened between his two articles, he will certainly draw very near perfection, if he does not actually reach it.

He labors under the erroneous supposition that I am offended with him, and that I have been prompted by ill-humor in what I have written. Pshaw! the young man must be joking. Or is he really in earnest? Perhaps he means exactly what he says. This, however, would not be singular,-for the young and ardent-spirited are when they offer their well-meant advice, or venture to correct their mistakes, even though they do this never so gently. Refractory urchins are excessively prone to imagine that their parents, guardians or instructors are wroth when they are doing all in their power to guide their inexperienced footsteps in the way that is proper. Now an aged gentleman, like myself, feels not a little anxiety when he sees the ingenuous, upright and unsuspecting youth, like your correspondent, led into error by lecturers who are such thorough anti-reformers that they openly advocate the dangerous practice of drinking "a little wine for the stomach's sake." I would say to your correspondent, who is evidently a pure-minded, in- the various Railroad projects in your vicinity. telligent and amiable young man,-beware how thou yieldest to the pernicious counsel of such advisers.

The widow of the late Mormon prophet, Joe Smith, depressed below par, I know of no enterprise of the idea that I feel offended. It was probably his inexperience and his non-acquaintance with the rhetorical hyperboles of earnest, vigorous writing, that led him to entertain such a notion. He must "live and learn;" which he will do, no doubt, as he is apparently a person of a good intellect, having a playful fancy, and a ready command of language, and is, on the whole, quite promising. Let him be assured that I feel an affectionate interest in his welfare, and shall look with fatherly solicitude upon his progressive career.

He is, of course, aware that it is just exactly as far from his house to mine as from mine to his. I wrote a brief notice of the lecturer of Mr. Hudson, which, having once been publicly delivered, became public proper-

ty. Your correspondent stepped forth and (before I had of the ablest young men in the House, viz Otis P. Lord, said a word in relation to him) intimated that I must be Esq., of Salem, whom your readers need not be informed "shallow" to draw such a conclusion as I did from the passages which I cited from Shakspeare's works.

Surely, then, he will not complain, if I, in the exercise of an equal right with himself, indulge in a little goodnature raillery at his expense. As far as the public may have exchanged are to be regarded as the vehicles of our interchange of opinion, with the wheels greased, and ney. For the people along the road, who listen as we pass, we are incognite.

And Mr. Correspondent, I rather guess we've rode a-(meanwhile our opinions of Shakspeare continuing unchanged) we will unite in applauding the sentiment of the ploughman-bard of Scotia:

"Here's a health to all who can read, Here's a health to all who may write;

There are none ever feared that the truth should be

But they whom the truth would indite." VERITAS.

O. B Morris, Judge of Probate for that County, and one of the best men in the State; Col. A. H. Bulloch, the youngest of the four, comes next, being about 30 years of age. He is a native of Royalston Mass., son of late Hon. Rufus Bulloch, of that town, forbe descended from Henry Bulloch, who died in Salem in 1657. Col. Bulloch, as many of your readers well know, is a most effective speaker, as well as a most graceful and popular orator.

Another graduate of that college is Hon. J. C. Perkins, of the Senate, who was chairman of the select committee in this case, and author of the report, which meets with the warmest encomiums.

BATTLE OF BUENA VISTA.

GEN. TAYLOR VICTORIOUS!

By the arrival at New Orleans on the 22d ult. of the schooner John Bell, Capt. Noyes, from the Brazos the 10th alt., and the brig Perfect, Capt. Gardner, from Tampice the 11th alt., more definite and accurate information has received from the army under the command of Gen. Taylor. The accounts reneived by these arrivals render it certain that General Taylor fought the Mexicans under Santa Anna, on the 22d and 23d of February, at Bnena Vista, and gained a brilliant victory over the enemy, but not without a great sacrifice of life. Our loss of officers in particularly severe. Among those killed are Col. Henry Clay, Jr. Col. John J. Hurlin, of lifinois, formerly a Whig member of Congress, and Col. Yell, of Arkansas, of the volunteers, and Cupt. George Lincoln of the regular army, Assistant Adjutant General, a son of Hon. Levi Lincoln, of this State. The battle was fought at Buena Visia, about six miles southwest of Saltillo, between Saltillo and Agua Nnova, and at the latest accounts General Taylor was still maintaining his position on the field of battle, undisturbed by the conemys.

After some months of observation of his work, I am satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingealous in accommodating them to the variety of cases which occur. I feel myself catled upon to recommend him to my professional brethren, and to the public, as a person well fitted to their wants in regard to these important articles.

JOHN C. WARREN, M. D., Boston.

From Dr. Greene, Beston.

I have sent many patients to be fitted with Trusses and Abdominal Supporters, by James F. Foster, and he has unformly given full satisfaction in their application.

The benefit of such instruments is often lest, in consequence of their imperfect construction, and from neglect in properly fitting them; on this account. I am in the habit of seuding patients to Mr. Foster, confidently believing that he will give them a good article, and see that they are well fitted.

From Dr. Robbins, Rowburg.

Since the death of Mr. John Beath, I have used, in preference to all other Trusses those made by Mr. J. F. Foster, of Boston.

P. G. ROBENN, M. D. Boston, April 47th, 1916.

The undersigned is familiar with the ability of Mr. J. F. Foster, to manufacture trusses of the various kinds of supporters and other apparatus required by invalids, and fully believes that the character of his work will favora bly compare with that of other arkists.

THE AMERICAN VIOLINIST. This splendid instruction Book for the Violin has already passed through two editions—it is without doubt by far the most thorough work for the Violin ever published in this country. The Evening Traveller thus speaks of it:

"J. P. Jewett & Co. have just published a complete system for the Violin by J. F. Hanks, in a handsonic quarto, of over a hundred pages. It is probably the most complete work of the kind in print. The sheets have been corrected with laborious care by an accomplished violinish and the utmost pains taken to make the work perfect. It the appendix will be found the whole of Otto's celehtated and now very rare, treatise on the construction, preservation, repair and improvement of the violin."
